

Nine Mile Ridge

About 10km west of Gold Bridge, a logging road is traveled for approximately 12km to the start of the Gun Creek/Spruce Lake Trail at Jewel Creek. The protected area may also be accessed by the southeast side via logging and mining roads. Many of these roads require a four-wheel drive vehicle.

It is a 69 km drive east from Gun Creek, to the head of the Yalakom FSR. It is then another hard 43 km on logging road to the Nine Mile Ridge trailhead.
